

ASX Announcement

15 August 2024

REDIVIUM STARTS TRADING ON THE FRANKFURT STOCK EXCHANGE

Redivium Limited (ASX:RIL) (**Redivium** or the **Company**) an emerging lithium-ion battery (**LiB**) recycler, is pleased to announce that it has commenced trading on the Frankfurt Stock Exchange under the ticker FSE: HR90. The Frankfurt Stock Exchange is the largest stock exchange in continental Europe.

The dual listing supports Redivium's strategy to broaden its investor base outside Australia as it develops its LiB recycling capability, technology diversification and the reach and depth of its feedstock supply chains.

The Australian Securities Exchange (**ASX**) will continue to be Redivium's primary exchange.

Redivium has appointed Frankfurt-based DGWA, the German Institute for Asset and Equity Allocation and Valuation, as its investor relations advisor in Europe.

DGWA will assist Redivium in engaging with retail, institutional and family office investors in the German-speaking DACH region (Germany, Austria and Switzerland), as well as the rest of Europe.

Michael O'Leary-Collins, Executive Director of Redivium and CEO Europe, said:

"We are delighted to expand our public market presence by listing on the Frankfurt Stock Exchange. This will allow retail and institutional European investors to invest in our shares in their local market as we continue to expand our business throughout Europe.

Sustainably sourced battery raw materials are vital for Europe's resilience and strategic autonomy, and we believe our growing suite of battery recycling technologies will help 'close the loop'. This includes a licence to commercialise patented technology by ACN 630 589 507 Pty Ltd, co-owned by Neometals Ltd (ASX: NMT) and SMS Group GmbH, that has been adopted by Mercedes Benz for its recycling needs.

European industry players are looking for recycled ESG-friendly critical raw materials at scale for which there are presently few solutions. We are pleased to have DGWA as a partner on our journey to provide these high-value battery materials for lithium-ion battery production supply chains in Europe."

Stefan Müller, CEO of DGWA, commented:

"We are excited to work with Redivium. European investors, governments and original equipment manufacturers (OEMs) are acutely aware of the shortfall in critical raw materials for the European industry and the role recycling will need play. Redivium's access to market leading battery recycling technology aligns perfectly with the goals of the European Critical Raw Materials Act.

Redivium's licenced technology fortifies supply chains across the European Union. This support's the continent's economic and strategic stability. We look forward to introducing the company to European investors and industry players."

This ASX announcement has been authorised for release by of the Board of the Company.

About Redivium Limited (www.redivium.com)

Redivium aims to provide advanced battery recycling technology across Europe. Redivium also has commercialisation rights to technology developed by Neometals and licensed from ACN630 589 507 Pty Ltd for the UK, Ireland, Nordics (Sweden, Norway, Denmark, and Finland), Italy and South-eastern Europe (Albania, Bulgaria, Bosnia and Herzegovina, Croatia, Greece, Romania, Serbia, Slovakia and Slovenia). ACN 630 589 507 Pty Ltd is co-owned by Neometals Ltd (ASX: NMT) and German engineering firm SMS Group GmbH.

Redivium's safe recycling processes eliminates lithium-ion battery waste and recovers valuable materials including lithium, nickel, copper and anode components for reuse in new battery production. With strong EU regulation and funding that supports recycling innovation amid the automotive industry's electrification, Redivium aims to become a leading battery recycler.

About DGWA (www.dgwa.org)

Deutsche Gesellschaft für Wertpapieranalyse GmbH (**DGWA**), the German Institute for Asset and Equity Allocation and Valuation, is a European investment banking boutique based in Frankfurt, Germany. Its management team has a 30-year track record in trading, investing and analysing small and medium-sized enterprises around the world. DGWA track record covers more than 250 IPOs, financing, bond issues, dual listings and corporate finance transactions, as well as corresponding road shows and awareness campaigns.
